📍 Gwalior, Madhya Pradesh

## SUMMARY

I am currently a pre-final year Computer Science undergraduate at IIIT Nagpur, specializing in AI and ML. My interests lie in backend development using Django and applying machine learning models to real-world problems. Eager to explore cybersecurity, I embrace new challenges that enhance my understanding and skills in technology

## EXPERIENCE

### Core Team Member

**Orator Club, IIIT Nagpur**

📅 07/2023 - 07/2025   📍 Nagpur

A student organization focused on enhancing communication skills and event organization

- Structured and drafted event scripts & summaries, ensuring professional flow and clarity during club events
- Anchored and moderated events, ensuring engaging interaction with participants and audience
- Contributed to event planning by drafting rules, setting guidelines, and assisting in overall organization
- Coordinated with participants from other colleges, handling queries and ensuring smooth participation

### Hospitality Team Member

**Tantrafiesta Tech Fest at IIIT Nagpur**

📅 09/2024 - 10/2024   📍 Nagpur

A technical fest organized by IIIT Nagpur attracting participants from various institutions

- Managed participants from other states and universities and ensured proper living arrangements
- Worked closely with the kitchen team to ensure prompt delivery of food orders during busy periods
- Enhanced customer satisfaction by providing exceptional service and addressing guest concerns promptly
- Assisted guests with check-in and checkout processes, ensuring a smooth and hassle-free experience

## EDUCATION

### B.Tech Computer Science with Specialization in AI&ML

**Indian Institute of Information Technology**

📅 2023 - 2027   📍 Nagpur, Maharashtra

### High School Diploma

**Kiddy's Corner Higher Secondary School**

📅 2020 - 2022   📍 Gwalior

### Secondary Education

**St. Paul's School**

📅 2010 - 2020   📍 Gwalior

## SKILLS

C/C++   Langflow   n8n   CSS

Cybersecurity   Deep Learning

Django   Machine Learning   Git

HTML   Keras   Numpy   Pandas

Python   PyTorch   REST

Scikit-Learn   SQL   TensorFlow

Django Rest Framework   FASTAPI

## PROJECTS

### MindWell

📅 06/2025 - 08/2025

A website focused on mental health support and resources

- Developing a web platform aimed at improving mental well-being by providing psychology-based resources
- Implemented user authentication, session tracking, and journaling features
- Integrated scalable backend with support for interactive chat modules and planned AI-driven recommendation systems

### Visitor Management System

📅 06/2024 - 08/2024

A backend management system for tracking visitor interaction

- Developed backend services in Django to track visitor entries/exits with secure authentication
- Created an admin dashboard for monitoring visitor data

### Medicine Recommendation System

📅 09/2023 - 10/2023

A recommendation system for medicine based on user symptoms

- Built a machine learning model to suggest medicines based on symptoms
- Utilized classification techniques and user-friendly forms for interaction

## KEY ACHIEVEMENTS

**Walmart Sparkathon Hackathon**

Prototype Selection in Walmart Sparkathon demonstrating technical innovation.

**IIM Indore Hackwise Hackathon**

Campus Finalist and contributed to rapid prototype and solution presentation

## INTERESTS

**Hobbies and Interests**

Enjoys reading books, playing cricket, and playing the guitar as a way to relax and engage with interests outside of academics
